The Matco-Norca Promise

Matco-Norca has been providing quality products exclusively through the wholesale channel for over 70 years. Our faucet lineup features several complete and unique families that encompass multiple designs and price points.

Our pressure balanced rough-in valves (with and without stops) are universal across every family, excluding Value Engineered. Furthermore, four of our families feature ceramic valve technology and we are proud to say that our lavatory and tub & shower products are EPA WaterSense® certified. Last but not least, our faucet program fully complies to the Safe Drinking Water Act (SDWA)/Federal Public Law No. 111-380 and all California Energy Commission requirements.

Matco-Norca's faucet program offers a limited lifetime warranty that fully encompasses both finish and function regardless of the application. Whether you are looking for entry level offerings to "value engineer" a project, or luxury products for your showroom, Matco-Norca has the warranty, breadth of products and finishes to ensure a lifetime of trouble-free satisfaction.

Certifications & Approvals

Matco-Norca is committed to maintaining a high standard of quality for all the products we offer. Most products in this catalog are labeled with a designated approval or certification code. Below is a brief description of these approvals.

ADA **Americans with Disabilities Act** — Protecting the rights of people with physical or mental disabilities.

ANSI **American National Standards Institute** — Organization that coordinates work among U.S. Standards writing groups; Works in conjunction with other groups such as ISO, ASME, ASTM, etc.

ASME **American Society of Mechanical Engineers** — Develops standards and testing criteria for finished products.

ASSE **American Society of Sanitary Engineering** — Develops standards and qualifies products for plumbing and sanitary installations.

ASTM **American Society for Testing Materials** — Develops standards for materials, products, systems and services.

CEC **California Energy Commission** — As the state's primary energy policy and planning agency, the California Energy Commission is committed to reducing energy costs and environmental impacts of energy use - such as greenhouse gas emissions - while ensuring a safe, resilient, and reliable supply of energy.

CSA **The CSA Group (formerly the Canadian Standards Association; CSA)** — is a global organization dedicated to safety, social good and sustainability. They are a leader in Standards Development and in Testing, Inspection and Certification around the world including Canada, the U.S., Europe and Asia. Their mandate is to hold the future to a higher standard.

ISO **International Organization for Standardization** — Develops voluntary, consensus-based, market relevant International Standards that support innovation and provide solutions to global challenges. More specifically, ISO 9001 sets out the criteria for a quality management system and is the only standard within the family that can be certified to.

NSF **NSF International** — An organization committed to public health that writes standards and certifies products for food, water and consumer products.

SDWA **The Safe Drinking Water Act** — Is the main federal law that ensures the quality of Americans' drinking water. Under SDWA, EPA sets standards for drinking water quality and oversees the states, localities, and water suppliers who implement those standards. Weighted average lead content of water contact components must be 0.25% or less.

UPC **Uniform Plumbing Code** — Developed by the International Association of Plumbing and Mechanical Officials to govern the installation and inspection of plumbing systems as a means of promoting the public's health, safety and welfare.

WS **WaterSense** — A U.S. Environmental Protection Agency (EPA) program designed to encourage water efficiency in the United States through the use of a special label on consumer products.

Kitchen and Lavatory

Value Series may meet an entry level price point, but there is no compromise on quality or warranty. The Value Series features EPA WaterSense® certified products as well as a full offering of conventional (non-pressure balancing) tub and shower options. All lavatories come with metal pop-ups and our tub and shower offering still comes with metal slip-on tub spouts! And yes, our limited lifetime finish and function warranty still applies, regardless of the application.
